Coding&Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code .practices, and alignment with your defined requirements

:Instructions

Ensure your code is well-structured, commented, and follows best practices for your .1
.chosen technology stack

The solution should address the core problem statement and implement the key .2
.functional requirements

.Include all source files, configuration files, and setup instructions needed to run the application.3

.Attach or link to your code repository (e.g., GitHub) in the table below.4

Solution Summary

Field	Details
Repository Link / URL	Not provided
Programming Language(s)	ServiceNow platform configuration
Framework(s) Used	ServiceNow Import Sets, Transform Maps, Tables, Reports and Dashboard
